"We have the technology, the products, and the resources to maintain our leadership position."

The semiconductor industry is the heart of a technological revolution that promises fundamental changes in the way we work and live. Fairchild is committed to a leadership position in the development of products and processes that will make that promise a reality. You can help determine the direction. Fairchild offers outstanding career opportunities for Electrical Engineers in the following areas: Integrated Circuit Design; Process—Fabrication of Semiconductor Devices; Product Engineer—Coordination, Design through Manufacturing; Reliability and Quality Assurance; and Product Marketing.

We have openings in the San Francisco Bay Area, New York City’s Hudson Valley, and South Portland, Maine.

THE SEMICONDUCTOR PRODUCTS GROUP will be conducting campus interviews on the date shown below. Please contact your placement office for an appointment or for further information.

March 10 & 11, 1981

Fairchild is proud of its record as an affirmative action employer and we encourage women, members of minority groups, and handicapped to apply.
