Campus-wide participation urged for Spring Weekend

By Tim Knaale

This year's second annual Spring Weekend should be "a very good time," declared Skip Butler '82, newly elected Undergraduate Association Social Council Chairman. The weekend's activities will begin Thursday, April 23 and conclude on Sunday April 26. Butler said that there will be events of broad appeal, and that "everyone should get involved."

The events begin Thursday evening at 7pm with a Junior-Senior dinner, which will be held at several living groups. The freshmen and sophomores will have an ice cream eat-off at a location which has not yet been announced.

On Friday at noon, the MIT Community Players will present "Reunion," a piece of modern drama by David Mamet, in the Microzine Lounge of the Student Center. Later, the Student Center Committee and the Dormitory Council will co-sponsor a Friday Afternoon Chat on Krenge Oval. Food, beer, and a band will be provided from 3 to 7pm. The first event of the Spring Olympiad, the TANK team speed beer drinking contest, will take place at 7pm.

Briggs Field will be the site of Delta Upsilon's Steak Fry on Friday, and will be served from 4 to 6pm. The first concert to be held in MIT's new Special Events Center will close Friday's events. The Poulette-Dart Band and Midnight Traveler will provide the music, and free beer will be available.

Saturday's activities begin at 10am. The Spring Olympiad will continue through the day. Events include legs of war, an obstacle course, a Volkswagen stuff, chariot races, frisbee throwing, and ice cream eating; all events will be held on Briggs Field Saturday afternoon. The All-Tech Song, in the Siza de Puerto Rico from 6:30 to 8:30, will conclude the Olympiad.

Other activities include a rocket launch by the Model Rocket Society at 10am on the women's softball diamond. An Activities Marathon will take place on Krenge Oval from noon to 5pm Saturday. Next year's organization will demonstrate their activities for the MIT community.

After the All-Tech Song, buses will leave from several locations in the MIT and Boston areas to take tropically-dressed couples to the bi-ennial Fiji Island Party, which is sponsored by Phi Gamma Delta (Fiji). A "real rowdy rock-and-roll band" and plenty of Fiji Island punch will be provided, according to Fiji brother Dave Mac Isaac '81. The Black Students' Union will also host a party Saturday night, featuring a soul band for musical entertainment.

Sunday at 10am, the MIT Community Service Fund will hold a four mile jog-a-thon. The race will begin along Memorial Drive and loop around the Charles River. The Student Center Committee's Spring Picnic will follow the conclusion of the jog-a-thon. The picnic begins at 11am on Krenge Oval, and will feature food, drink, and a live band.

The awards ceremony for the weekend's activities will take place on the Student Center steps at 3pm. The officially planned Spring Weekend activities will come to a close with the conclusion of the picnic at 3pm.

NSF Fellows

(continued from page 2)

the program, beginning in fiscal year 1982, when all fellowships already awarded would continue to be financed and no new grants would be funded. The portion of the NSF budget devoted to these fellowships is approximately $15 million. Commenting on the status of the program for the future, Wadeleigh said, "We really won't know until next October."

The committee has not committed action on Reagan's fiscal year 1982 budget. The House Committee on Science and Technology, which has already considered the Reagan NSF budget proposal, voted to restore some $200 million in funds allocated to science education to the training grants to the budget. It is unclear just what effect this action will have on the future of the NSF Graduate Fellows Program.

The distribution of new awards by baccalaureate institution places MIT undergraduates third with three percent of the total number of new awards, behind Harvard and Princeton. NSF Minority Graduate Fellowship Awards granted MIT minority students 1.6 percent of the new minority fellowships, the highest percentage in the nation.
