Socialist wins Presidential election in France — Francois Mitterand was elected President of France yesterday. Mitterand’s election for a seventh year was seen as the biggest political shift in France in a generation. Socialist candidate Mitterand defeated the incumbent, Valery Giscard d’Estaing.

Reagan aide proposes guest worker plan with Mexico — The Reagan Administration is considering a guest worker plan under which hundreds of Mexicans would be allowed to enter the country and work on a temporary basis. This proposal is seen as an effort to improve US-Mexican relations, but it has met with harsh criticism from organized labor and many Mexican-Americans. The president has not yet reviewed or received advice on this program.

Format of LSAT to change — Beginning in the summer of 1982, grammar, geometry, and quantitative math problems will be eliminated from the current LSAT. Multiple-choice questions will remain as the bulk of the exam, at least one essay question will be added. Furthermore, the 200 to 800 point system will be replaced by a 10 to 50 point system.

New budget angers allies by cutting funds for joint science programs — Particularly American of particular allies such as France, West Germany, and Japan, have reacted strongly toward the budget revisions that President Reagan announced in February concerning curtailment of US involvement in various international scientific programs. These cuts include the international Solar Polar Mission which was to fly two spacecraft, one American and the other European, to opposite poles of the sun. The Reagan Administration has cut ties with the US half of the project, while the Europeans have already spent $100 million.
