familiar Scottish folk song (other reviewers
have found an Indian and even a Chinese
tone — let's just say something is
savage, and not quite in the Western tradi-
tion). The treble vocals and the chilled
chorus which demands your participation
are second only to the inspired use of a
string quartet, which keeps the guitars and
stamps the song as a true original.

This is the key to what the Moonies offer —
group support and the feeling of belonging.
It is reinforced through constant singing
and chanting, often of nonsense. It is
not so important what they sing, but the
others sing together.

We can see why people are seduced into
doing this. The Moonies point up by contras-
to a great lack in our modern age, these days of
urbanization and anomie. Clearly they is deprogrammed in the movie.
