Get a new slant on math.

"The Texas Instruments new TI-40 and TI-55-II calculators have angled displays for easy-to-see-answers."

The slanted display makes these calculators easier to use at arm's length...and that's just the beginning. The economical TI-40, with built-in functions like trig, stat, logs, roots, reciprocals and more, will help you through math and science classes-especially since it comes with the informative book, Understanding Calculator Math. The book explains how to use the TI-40 to work through, and understand, common problems. If you're an advanced math student or science major, you'll be more interested in the TI-55-II, which comes with the Calculator Decision-Making Sourcebook. The TI-55-II features 56-step programmability, multiple memories, scientific and statistical operations, conversion factors and much more—a total of 122 functions. An extremely powerful calculator at an excellent price. Both calculators have LCD displays, long battery life and fit right in your pocket. TI-40 and TI-55-II calculators. Two new slants on math from Texas Instruments. Look for them wherever Texas Instruments calculators are sold.
