Child abuse hurts everybody.

Last year in the United States, an estimated one million children suffered from abuse and neglect, and at least 2,000 of them died of it. That's 2,000 children each year whose promise will never be shared with us.

It doesn't have to happen. With enough volunteers, local child abuse prevention programs, crisis centers and other facilities can be formed to aid parents and children. But it can't be done without volunteers. Please, write for more information on child abuse and how you can help prevent it. What will you do today that's more important?

The next advancement could be yours!
