**Child abuse hurts everybody.**

Last year in the United States, an estimated one million children suffered from abuse and neglect, and at least 2,000 of them died of it. That's 2,000 children each year whose promises will never be shared with us.

It doesn't have to happen. With enough volunteers, local child abuse prevention programs, crisis centers and other facilities can be formed to aid parents and children. But it can be done without volunteers. Please write for more information on child abuse and how you can help prevent it.
