ADD TEN YEARS TO YOUR THINKING.

What we do at MITRE is as far as a decade ahead of what others consider the state of the art.

As General Systems Engineer for C— Command Control and Communications — for the U.S. Air Force Electronic Systems Division, it's our challenge to look beyond tomorrow to the world of 5 or 10 years from now. To analyze and engineer one-of-a-kind systems that will be more than current well into the 1990's.

Our efforts have attracted many of the most accomplished experts in their fields. Engineers responsible for remarkable advances in areas including computer systems, systems software, systems architecture, radar systems, and satellite and terrestrial transmission. Engineers you'll be working with who can advance your career a decade in technologies including fiber optics, computer security, sensor technology and voice recognition.

Excellence is nurtured in every way possible at MITRE. Facilities, compensation and benefits to attract and keep the finest people. Full tuition reimbursement plus on-going, in-house lecture series from the unique MITRE Institute to promote your continued education. Plus exceptional project mobility and dual ladder career pathing to get you where you want to be, at your pace.

If you like 10 more years wisdom — without the wrinkles — come to MITRE.

Massachusetts Institute of Technology
Interviews
Friday, February 26, 1982

MITRE will be conducting campus interviews Friday, February 26, 1982. Contact your Placement Office to arrange an interview if you are a BS, MS, or Ph.D. candidate in:

Electrical Engineering
Computer Engineering
Computer Science
Mathematics
Physics

If you are not able to interview with us on this date, send your resume to Philip H. Hicks at The MITRE Corporation, Burlington Road, Bedford, MA. 01730.

U.S. Citizenship required. MITRE is an equal opportunity employer actively seeking applications under its affirmative action program.
