Men's Basketball — The Engineers closed out the '81-'82 campaign with losses to WPI (81-66) Thursday and Connecticut College (67-57) Saturday. Mike Wees '82, who finished his career at MIT with several fine performances, scored 15 points against WPI to pace MIT, while Mark Branch '83 hit for 16 Saturday. Nevertheless, the team's final record is 1-6, though both Coach Fran O'Brien and his crew end at MIT with several fine performances.

Women's swimming — Women's swimming did not fare well this past week, falling 71-52 to Southeastern Massachusetts Thursday and 83-55 to Brown on Saturday. The team's final record is 4-0, though both Coach John Benedick and his squad feel that (based on individual achievements) the season was a success. As always, there were bright spots in each of the meets. On Thursday, Laura Gooch '82 won the 200-meter individual medley, while Lisa Freed '82 took first in the one-meter diving and second in the three-meter behind Ann Tulimniel '83. Karen Forndt '82 knocked three seconds off her previous best time in the 100 free style, and Kathy Warren '82 took four seconds off of her best on the 200 breast stroke.

Saturday saw wins by Barbara Schneider '82 in the 50 and 200 meter freestyle, Sue Feindt '83 in the 100 IM, and Gooch in the 100 butterfly. Fourth went second place in both the 50 freestyle and the 50 butterfly.

The team now looks forward to the New England Championships this Friday through Sunday, February 26-28, at UMass-Boston.

Women's Basketball — The women's basketball team finished its home season with a 52-77 loss to Trinity College Saturday. Trinity now leads the series between the two schools 4-0.

The hoopsters will take their 5-16 record on the road to Babson for the season finale tonight. That game is scheduled to start at 7pm.

Fencing — The men's fencing team continued its slide, dropping three of its four matches over the weekend. On Friday, the Bluejays lose to Columbia 13-6 in DuPont, and on Saturday, the Beavers put up a very good showing against a strong team from Penn before being edged 14-13. The fencers then split a pair of matches on Sunday, taking a 22-5 decision from St. John's but bowing to North Carolina 16-11.

The women fared even worse, not coming up with a single victory. The squad was devastated by Penn Saturday 15-1, and on Sunday was defeated by North Carolina 21-14.

Tonight, both the men and women will travel to Brown for a 7pm match. The women then return home on Saturday when they host Fairleigh-Dickinson at 1pm. The men will be looking to the IFA meet at Yale March 5-6.

Applications are now being received to fill a vacancy on the Everett Moore Baker Memorial Foundation Committee.

For more information, call Michael Lopez, at 253-2696.

Sargent & Lundy Engineers will be recruiting on campus

Equal Opportunity Employer M/F

A LOOK AT YOUR FUTURE...

with TRW Electronic Systems Group

OPPORTUNITIES IN THE FOLLOWING AREAS:

- COMMUNICATION SYSTEMS & ANALYSIS
- ANALOG & DIGITAL CIRCUIT DESIGN
- RF CIRCUIT DESIGN
- CUSTOM LSI & VLSI RESEARCH, DESIGN AND FABRICATION
- SATELLITE COMMUNICATIONS SYSTEMS DESIGN
- SIGNAL PROCESSING
- ELECTROMECHANICAL PACKAGING, STRESS, AND THERMAL DESIGN
- SYSTEMS TEST AND INTEGRATION

Satellite communication systems, deep-space scientific spacecraft, sophisticated avionics, undersea communications networks...all of these offspring of modern technology, and more, owe their existence and success to advanced electronic systems supplied by a division of "A Company Called TRW." Electronic Systems Group boasts one of the most ambitious and creative groups of scientists, engineers and technicians in the electronics industry. These electronics experts exercise their talents in an environment which stresses camaraderie and cooperation, and they have a common goal: to continue to advance the electronics state-of-the-art to meet the ever-expanding needs of commercial, industrial and government customers.

ESG, long one of the best-equipped organizations for research, design, and development of complex electronic systems, is currently expanding its staff and its facilities. Outstanding opportunities exist for recent college graduates to work with a company where individual initiative and creativity are appreciated, encouraged and rewarded, and where the future is clear. In terms of technological challenge and personal satisfaction, no other segment of the electronics industry offers a better place to work and grow.

TRW is an equal opportunity employer offering excellent salaries, mobility within the company, graduate fellowships, on-site educational TV and an outstanding flexible benefits package, that includes Flexitime and a Christmas week shutdown.

If you would like to investigate the career opportunities in your area of expertise, TRW will be conducting on-campus interviews in the College Planning and Placement Center, Thursday, February 25, 1982 and Friday, February 26, 1982.

Come and learn more about us at our open house on Wednesday, Feb. 24, 1982, 3:30-5:30 p.m., Rm. 4-153.
