**Swimmers ice Polar Bears**

By Robert E. Malchman

Mark Larow '82 broke a ten-year record in the 50-meter butterfly, and Andy Renshaw '85 snatched his own varsity record in the 200 butterfly as MIT swept New Brunswick out of the water Saturday at the Alumni Pool. The Engineers beat the Polar Bears one race every save one on their way to winning 83-27.

The slaughter began with the 400 medley relay team of Larow, Robert Schmitz '84, Renshaw, and Joel Harris '83 placing first; Don Gillies '84 and Captain Bill Horrow '82 finishing one-two in the 100 freestyle; and noted, in every race save one on their nation~

Bob Schroeder '82 took second in the 100 freestyle, the only race the Engineers did not win. Scott Doan '84 thrashed his opponent in the 200 backstroke by 14 seconds, and Schmitz came in 11 seconds ahead of teammates Dawson and Gillies as MIT swept the 50 freestyle.

Schmitz, who already has a national qualifying time in the 200-meter breaststroke, won that event as expected. In the final event of the meet, the 400 free relay, Harris, Larow, Schroeder, and Renshaw easily took first.

The victory satisfactorily concluded a mixed-bag season of dual meets at 4-4. It should be noted, though, that the Engineers faced a much tougher schedule this year than last. The next stop is the New England Championships beginning Thursday, March 4 at the University of Rhode Island.

The team's performance at the New Engagements has improved each year since Coach Benedick's arrival in 1976, when it finished 16th, and 1979 and 1980 when it ranked sixth. This year Benedick predicts that "being the, say, third through twelfth place teams there will be a real scramble, with MIT somewhere in the pack.

**Computer Science & Electrical Engineering Majors ...**

**Software**
- Real-Time Distributed Computing
- Operating Systems
- Data Base Management Systems
- Diagnostics
- Electronic Mail
- Software Tools: Compilers, Debuggers, etc.
- Test Engineering

ROLM Corporation, founded in 1969, has grown 50%--100% each year and currently has 440 employees. ROLM is the leading independent supplier of computer controlled voice and data business communications systems.

Included in ROLM's outstanding benefits package is a three-month paid Sabbatical after six years and every seven years thereafter. Company Paid Tuition for graduate study at Stanford and other area universities. Employees can take advantage of flexible working hours to use ROLM's million dollar gym, which includes tennis courts, racquetball courts, basketball, exercise rooms, volleyball, swimming pools, par course, steam room and jacuzzi.

**On Campus Interviews Friday, February 26**

Meet with working software engineers from ROLM in the Placement Center. See our Company Literature in the Placement Center.

If unable to attend an interview, send resume: Gibson Anderson, Manager, Recruiting & Training, ROLM Corporation, One ROLM Drive, Menlo Park, California 94025. We are an equal opportunity affirmative action employer.
