SCC with the GA, but would not be willing to discuss the bylaws for approval. Thomas said and Vice President Ken Meltsner progress has been made toward although the last two UA Vice Presidents have also been meeting with the SCC. Although Thomas would not to attend just to have the SCC’s bylaws approved.

"The effective size of the GA is on the order of 30," said Thomas. "The GA is the SCC; it’s on the same order, 20 to 25 active people out of over 25 events this year. That does not even count the services we provide, and we’ve been doing this for over a decade, without help or support from the GA. Because of this, it’s very hard for the committee to accept the veto power of the GA.”

"SCC tends to run things just as surprises. Clearly this involves the needs of the student group aren’t being met," said ASA Treasurer and FirstBoard member Arnold Contreras ’83. Student government money is not being spent, while other student activities face severe lack of funds, claimed Contreras.

Kenneth Dumas ’83, SCC Chairing T Officer and former UA Vice President, said, “To say that any group is more representative than any other, like TCA (the Technology Community Association), or the Undergraduate Association, is an oxymoron.”

The effective size of the SCC is on the order of 30," said Linda Caray, the President. "It’s an excellent program," said the Dean of Students. "To say that any group is more representative than any other, like TCA (the Technology Community Association), or the Undergraduate Association, is an oxymoron."
