**Give blood.**

I'm going to keep working in MIT's Counseling Center, and I'm looking for students who would like to volunteer their time and help out. It's a great opportunity to give back to the MIT community and make a real difference in the lives of students. If you're interested, please come by the Counseling Center and talk to me.

---

**Join us for a morning jog**

On Tuesday and Wednesday, November 9th & 10th, representatives of General Electric will be on your campus.

Our Technical Recruiters would like you to join them for a morning jog. We'll begin at 77 Massachusetts Avenue at 6:30 AM each day, jog downtown at Harvard Bridge and over the Longfellow Bridge (Some of our managers will turn back up Massachusetts Ave. before reaching the Longfellow Bridge for a jog of a little over 2 miles). Once over the bridge we'll head back to 77 Mass. to finish up our 5.4 mile jog.

If you're interested in meeting our people in a completely informal setting...put your track shoes on and join us.

If at 7:30 AM you're still curled up in bed...good text book...just remember your interview with General Electric.
