A natural disaster is no worse than a lifetime of hopelessness. In too many corners of our world, poor health is a daily fact of life. Since 1958 Project HOPE has brought self-help programs to people in 25 developing countries in five continents. Project HOPE — for a generation — improving health through education. Help it live on.

Raychem

Discover the elements of success at Raychem.

Technology, Flexibility, Response ...

These basic elements represent the driving force behind our dramatic 25 year growth. Now a Fortune 500 international company, Raychem enjoys annual sales exceeding $500 million.

Our unique technologies — radiation chemistry, heat recoverable metals and conductive polymers — are continually adapted to meet the needs of many industries, including telecommunications, aerospace, petrochemicals, energy and electronics.

Raychem’s multidisciplinary approach to research and product development promotes a working atmosphere of cooperation and aggressive scientific endeavors. This, coupled with the flexibility of our workstyle and the company’s response to its employees, is Raychem.

ON CAMPUS INTERVIEWS

November 10
