Sloan wins IM bike race
By Martin Dickau and Pepper White
(Editors note: Pepper White is the graduate resident advisor of the Sloan En-
trey in Senior House and is a member of the dean's D-4 squad.)
Forty-two cyclists competed last Saturday in the MIT Team and Individual Bicycle Cham-
ionship held in Concord and Carlisle.
Saman Majid topped the individual title and led his team from the Sloan School on to vic-
tory. The Senior House "A" team took second, and Phi Beta Epsilon placed third.
Final scores were based on the overall times of each of the teams' top three riders. Sloan's
winning time was 2:44:03, almost six minutes ahead of Senior House's 2:50:59 and well ahead of PBE's 3:53:49.
The race took place over a 10-mile route, with each rider required to make three circuits. A
group of thirteen riders led the pack going into the last lap. The Sloan School team and the Sen-
ior House "A" squad both had three riders in the lead group and were in a position to take the
team title in the bunch sprint.
The final few miles were very hilly, and the leaders separated on the last climb. The Sloan rid-
ers managed to remain among the frontrunners, though, sewed
up the team victory. A strong sprint by Sloan's Majid gave him the individual honors.
Although only four teams partic-
tipated in Saturday's race, a better turnout at the spring intramural race is hoped for. Eric
Martinet, captain of the eight-
man Senior House team, issued a chal-
ge to MIT's living groups to field competitive teams in April's contest.

Men's Sailing — MIT won the Stonehill Invitational Regatta last Saturday, taking eleven of twelve
races. For the Engineers were
skipper Lars Rosenheim '84 with crew Linda Maxwell '85 and skipper Steve Uhl '84 with crew
Mary Center '85.

In the Schelby Trophy, Bruce
Klein '83 and Peter Quigley '84
both finished sixth in their re-
pective divisions, qualifying
MIT for the Atlantic Coast Com-
petition.

Women's Sailing — ended the
season on a positive note with a
seventh-place finish in the Victo-
rion Coffee Urn at Radcliffe. Top
skippers for the Engineers were
Margaret Norris '83 and Domin-
ique Grey '84.

Women's Volleyball — is now 25-
4 on the year after a 3-0 loss at
Springfield College Tuesday.

Before We Put You In Charge Of The World's Most Sophisticated Nuclear Equipment, We Put You Through The World's Most Sophisticated Nuclear Training.

It takes more than 16 months of intensive training to become a fully qualified officer in the Nuclear Navy. You begin with four months of leadership training. Then as a Navy officer you get a full year of
graduate-level training available nowhere else at any price.

Navy training is based on more than
1900 reactor-years of experience. Right now the Navy operates over half the nuclear reactors in America. And the
Navy's nuclear equipment is the most
specialized in the world. That's why your training is and must be the most
specialized in the world.

As an officer in the Nuclear Navy, you have decision-making authority immediately. You get important management
responsibility fast. Because in the
Navy, as your knowl-
edge grows, so does
your responsibility.

Your training and experience place you among the country's most qualified profes-
sionals. (No surprise
that most of the men who operate the reactors in private industry started in the Nuclear Navy.)

It takes more time and more
effort to become an officer in the Nuclear Navy. But the rewards are greater, too.

The rewards can begin as early as your junior year in college. Quality, and the Navy will pay you approximately $100/month while you finish school.

After four years, with regular promotions and salary increases, you can be earning as much as $37,400. That's on top of a benefits package that includes medical and dental care, and 30 days' vacation earned every year. More responsibility, more money, more future.

So, if you're majoring in math, engineering or the physical sciences, and you want to know more about a future in nuclear power, fill in the
coupon.

Today's Nuclear Navy is an opportunity like no other in the
world.

Navy Officers Get Responsibility Fast.
