dias discounted the refugees' stories as "second- or third-hand reports." In 1975, Anthony Lewis wrote so far as to write in The New York Times of our "cultural arrogance" in condemning the Khmer Rouge.

But in recent years, the truth has emerged. The mass graves have been found. The refugees are being listened to. And the demographers have been counting. It is estimated that two to three million people in a nation of seven million died under Pol Pot's three-and-one-half-year rule. Six months ago, the West was horrified at the sight of hundreds of massacred Palestinians at Sabra and Shatila. But two to three million, dead, is beyond our comprehension.

I think the people of Cambodia now understand that the price of freedom must be eternal vigilance. And I hope that we in the West realize it, too.

Before We Put You In Charge Of The World's Most Sophisticated Nuclear Equipment, We Put You Through The World's Most Sophisticated Nuclear Training.

It takes more than 16 months of intensive training to become a fully qualified officer in the Nuclear Navy. You begin with four months of leadership training. Then as a Navy officer you get a full year of graduate-level training unavailable anywhere else at any price.

Navy training is based on more than 1900 reactor-years of experience. Right now the Navy operates over half the nuclear reactors in America. And the Navy's nuclear equipment is the most sophisticated in the world. That's why your Navy training is and must be the most sophisticated in the world.

As an officer in the Nuclear Navy, you have decision-making authority immediately. You get important management responsibility fast. Because in the Navy, as your knowledge grows, so does your responsibility.

Your training and experience place you among the country's most qualified professionals. (No surprise that most of the men who operate the reactors in private industry started in the Nuclear Navy.)

It takes more time and more effort to become an officer in the Nuclear Navy. But the rewards are greater, too.

The rewards can begin as early as your junior year in college. Qualify, and the Navy will pay you approximately $1000/month while you finish school.

After four years, with regular promotions and salary increases, you can be earning as much as $40,500. That's on top of a benefits package that includes medical and dental care, and 30 days' vacation earned every year. More responsibility, more money, more future.

So, if you're majoring in math, engineering or the physical sciences, and you want to know more about a future in nuclear power, fill in the coupon. Today's Nuclear Navy is an opportunity like no other in the world.
