World

White House urges Salvadoran election — The Reagan administration asked the government of El Salvador to move its presidential elections from March 1984 to this year, officials said yesterday. Moving the election date, State Department officials said, would allow Salvadoreans to choose their leaders. The administration would like to see elections held here by the end of this year.

Thomas P. O'Neill Jr., D-Mass., said earlier this week that President Ronald Reagan does not have enough votes to pass the military aid bills he wants.

Weather

Cool, windy, and dry — Today will be sunny and mild, with highs between 43 and 47. Tonight should be partly cloudy with low temperatures along the coast in the mid-forties.

---

Course 14 Economics

Open House

Wednesday March 9
Tuesday March 29
4–6 PM, E51–332
(Schell Room)

Come and talk with faculty and students about concentrating, majoring, or if you're just interested in Economics.

Supply-side open house; you supply questions and we supply answers, food, and drink.

---

MEET YOUR EQUAL PARTNER

Equal Partners clients are highly-educated undergraduates and graduate students, as well as busy professionals with advanced degrees and diverse interests. We're the innovative dating service for the '80s.

No wonder we were featured on Channel 5's "Consumer Report" and in the Boston Globe.

969-0600
Mon-Fri 9-7, Sat 10-4

equal partners

White Shoes and the Successful Engineer

Three-martini lunches, slick phrases, fat expense accounts. UGH! No self-respecting engineer wants anything to do with selling, right? Well consider this: recent research shows that the most successful, innovative high tech companies have a strong orientation to the customer. And Megatest has an on-the-job training program for engineers who want a career path toward leadership in innovation.

The Death of a Salesman...

We call it Test Engineering. It's not sales, but rather working with sales engineers to directly serve our customers' technical application needs. Short of being a test pilot, it's about the most exciting, fast-paced job you can get: the front line of high-tech business competition, in a world-wide arena. It takes intelligence, expertise and a full deck of cards.
