Talk To Draper

Draper — the world-renowned research center, located in the Technology Square complex in Cambridge, Massachusetts, handles a volume of more than 115 million dollars each year and employs over 1700 people throughout the Laboratory. As leaders in the industry, we're breaking new ground in Guidance, Navigation and Control, Fault Tolerant Computing, Precision Pointing and Tracking, Advanced Spacecraft, Industrial Automation and Undersea Vehicle Systems Design. And, because Draper is in the forefront of high technology — we offer hands-on experience in a "working laboratory" environment. We do fascinating and rewarding work, attracting some of the nation's most imaginative, inventive people. If you're one of them, graduate degree in Electrical Engineering, Aerospace Engineering, Mechanical Engineering, or Computer Science, arrange for a Draper interview.

We will be at

MIT

on

March 10, 1983

See your Placement Office to arrange for an on-campus interview, or send your resume to Dr. Daniel E. Glucksowski, Dept. C, The Charles Stark Draper Laboratory, Inc., 555 Technology Square, Cambridge, MA 02139.
