Linksmen (9-0) are doing amazing job

By Martin Dickau

"I took the (coaching) job as a one-year, temporary thing," explained Assistant Director of Athletics Jack Barry, now in his eleventh year as MIT's volunteer golf coach.

Barry enjoys a sparkling career record of 122-79-3. The team has not suffered a losing season since 1973. This year his linksmen are 9-0 in their spring season, 15-0 counting the fall.

Barry is quick to give all the credit to his players. "It didn't look like we were going to do too well this year," he said, but "the kids have done an amazing job."

The team has had troubles in tournaments, most recently finishing tied for 23rd of 48 schools in the New England Championships Monday and Tuesday. MIT has never finished better than sixth, so a fact Barry claims is due to a lack of "stars" on the team. "Our strength is in numbers," he said. "All seven players are about equal. We don't have that good a tournament team [where only the top four scores count], but we're tough in dual matches."

The number one player has been Morris Kesler '83, who, in his coach's words, has been "playing well all year. He's been very steady."

Rob Irwin '83 has shown "the biggest improvement of all," so much so that he was moved up from alternate to the number two or number three position.

The squad was also blessed with the influx of new talent. Freshman Alex Romeo has, the coach noted, "been outstanding."

Captain Pat Fowler '83, Brent Fox '83, Rich Stevens '84, Chris Furlong '85, and Ed Colgate '83 all received warm praise from Barry for their contributions to the team's unbeaten record.

The coach singled out Rick Jones '83 for special mention.

**THERE IS NO ENGINEERING SHORTAGE!!!**

The phony shortage is the self-serving invention of educators (to keep classrooms filled) and corporate employers, who seek only to cut costs.

In recent months engineers have been laid off at T.I., Xerox, GTE, Raytheon, Lockheed and the like. You are not being taught that present day engineering careers end in about 1-20 years rather than the expected normal of 40 years. Does your family physician give up his practice to "go into management?"

The Committee of Concerned EE's, Box 19, Massapequa Park, NY 11762 suggest that you think about this, and spread the word.

**Now the only reason to take a train in Europe is if you can't drive.**

If you're going to Europe this summer, don't see it from a train. See it from behind the wheel of a Hertz car. It's less expensive than a European rail pass. And it costs even less when you share the ride with a friend. Plus with a Hertz car, there's never a charge for mileage.

By renting from Hertz, you can reserve your car just 7 days before renting, you don't have to pay in advance, and in many cases there's no drop off charge. And unlike some rent-a-car companies, Hertz's minimum renting age is 18 years old. What's more, our prices are guaranteed in local currency through March 31, 1984. So no matter how much the dollar fluctuates, our rates won't.

Hertz also saves you money when you're off the road. We offer discounts at 1,500 hotels in Europe, including Holiday Inn. Rooms start as low as $28 per person, double occupancy ($17 in Britain), including breakfast, service and tax.

For full details, call your travel agent. Or call Hertz at 1-800-654-3000. If you think going by Hertz will take too much time, you'll be pleased to discover you're way off the track.

Hertz also has low weekly rates on larger cars. Expendable charges are not included. Hertz dollars are shown. Basic fare is based on exchange rates valid March 23, 1983.
