Take A Freshman To RUCCLES
(It's worth it!)

GOING OUT for pizza is a great way to build new friendships. Especially when the pizza is London's All-Cheddar Pizza—famously fresh, hot, and hearty.

Now, freshmen who present a valid I.D. upon ordering can be served regular size pizzas for $2.95 (a $7.05 value) for only $2.02. And our baby prince pizza, a $1.75 value, for only $1.01!

So take a freshman to Ruggles. Or, if you're the freshman, invite somebody new. It could be the start of a beautiful relationship.

The hands that built the modern world.

In the 17th century, Europeans witnessed the birth of inventions that would change forever the way people lived and set the stage for the industrial revolution. And the political and economic landscape of the West forever changed in the years that followed.

The book is a gripping chronicle of the handiwork of the industrial clock. It is a story of the development of the mechanical clock, from the medieval to the modern, and of the clockmakers who created it.
