ATTENTION!!!
ALL CALIFORNIA STUDENTS

CAN EITHER YOU OR YOUR PARENTS STILL USE FINANCIAL AID THIS YEAR?

The CLAS* loan program is now available to California students and their parents. The program which is similar to the Guaranteed Student Loan Program (GSLP) allows parents to borrow up to $3,000 per year to help with educational costs. It is also available to independent undergraduates and graduate students.

This program is made available through the California Student Loan Authority.

Chemical R&D Career Opportunities

IMAGINATION IN RESEARCH...

THE KEY TO KNOWING THE UNKNOWN.

How to discover what is not yet knowable? To create what has never before existed? To understand what lies beyond the traditional boundaries of technology? Kimberly-Clark Corporation has found, throughout our long history of technological innovation, that imagination in research is key. A $50 plus million annual Corporate R&D commitment helps us act on this principle.

That's why we're coming to M.I.T. to find Polymer Chemistry, Chemical Engineering and Organic Chemistry scholars whose imaginations can help us delve into the unknown. Talk with us on campus Thursday and Friday, March 8 and 9. The challenge awaits.

An Equal Opportunity Employer M/F.
