Pistol squad shoots past Ohio State

By Les Rafter

The MIT pistol team fired a record high 318 on this weekend, defeating Ohio State University.

Fine shooting by David W. Martin '84, Will Johnson '85, Homero Rey '86 and Jerry Martin '86 in the free pistol event gave the team an early 10-0 lead.

In standard pistol, once considered the team's weakest event, the team drew a 216 on Saturday, breaking the range record for the event, which was previously held by the US Military Academy.

David Martin, Johnson, Rey, and Roberto Landrau '85 accomplished the feat with impressive shooting. The four easily defeated Ohio State's 288. The team's combined score is 546 without two of its better pinch hitters, Homero Rey '86 and Jerry Martin '86.

In air pistol the team shot a record of 54 feet and 6 inches in Saturday's meet against Bowdoin College at the New Athletic Center.

In return, Navy aviation demands something of you as an officer: Leadership.

Your path to leadership starts with officer training that's among the most demanding in the military. It's intensive leadership and professional schooling combined with rigorous Navy flight training. And it's all geared to prepare you and other college graduates for the unique challenge of Navy aviation. The program is tough but rewarding.

One important reward for Navy officers is decision-making authority. In the air and on the ground you have management responsibility from the beginning. And your responsibility grows as you gain experience.

No company can give you this kind of leadership responsibility this fast. And nothing beats the sheer excitement of Navy flying.

The salary is exciting, too. Right away, you'll earn about $18,300 a year. That's better than the average corporation pays you just out of college.

And with regular Navy promotions and other pay increases, your annual salary will soar to $31,100 after four years. That's on top of a full package of benefits and privileges.

Before you settle down to an earth-bound desk job, reach for the sky. Reach for the coupon. Find out what it takes to be part of the Naval Aviation Team. You could have a desk that flies at twice the speed of sound.
