Frisbee Club in regionals

By Mike Blahak

The MIT Frisbee Club placed sixth in the 17-team College Intersectional tournament last weekend, advancing to the regional tournament to be held next weekend in Albany, N.Y.

The club, nicknamed the Beevers, finished second in its four-team pool, Saturday to qualify for Sunday's double-elimination tournament consisting of the second and third place finishers of the four pools. The MIT team needed to finish in the top six of the tournament to qualify for Regionals.

On Saturday, MIT defeated Middlebury College 13-8 and Wesleyan University 13-8 before losing their third game to Umass / Amherst 17-8. The loss eliminated the Beevers from the tournament in Regionals. The top three teams advanced to the national tournament to qualify for Regionals.

Although several schools pay coaches, the majority involved in ultimate hope to keep the sport uncommercialized. As co-captain Revi put it: "Playing the game is fun. The chances are small, but they're there," said Revi. "The sport of ultimate frisbee has been growing rapidly ever since. Track finishes year with record streak

By Christopher Y. Kim

The outdoor track team concluded its regular season Saturday, running Division III trials at Worcester Polytechnic Institute and Brandeis University, 114-67-23.

The victory extended MIT's dual-meet winning streak to 16. For the first time in MIT's history, the Engineers went undefeated in dual-meet competition in both the indoor and outdoor seasons. Only a controversial two-point loss to Brandeis in the indoor New England Division III championships blanched a perfect year for the team.

In the field events, Pat Parris '86 and Greg Procopio '87 got second place finishes in the hurdles, triple jump, and long jump, respectively. In the shot put, Ross Dreyer '86 and James Hendriksen '86 placed first and second in the discus throw, each with a wind-hampered time of 45.2 seconds.

Although MIT did not win the 1000-meter steeplechase, Mike Lyes '85, Brian Callaghan '87 and Turan Erdogan '87 took second, third and fourth. (Please turn to page 11)
