CONPUTER SCIENCE
GRADUATE STUDENTS
Part-time employment is available at Varian Associates Lithography Products Division’s Lexington facility. The work includes real-time software development and software support for a team of scientists and engineers working on the development of electron beam microelectronics fabrication equipment. Candidates must have proven skills in UNIX/VMS, C, assembly language, and microprocessor-based hardware control. For further information, contact Jerry Roy at 861-0820.

Is there an MBA in your future?
LEARN MORE ABOUT Amos Tuck School at Dartmouth College
