Limits for 1985 unlikely; faculty to vote on CEP plan

By Matthew Cherian and Thomas T. Haung
The Committee on Undergraduate Affairs (CUAFA) decided yesterday to present a proposal to the MIT faculty for a plan to restrict admissions to the Electrical Engineering and Computer Science (EECS) departments.

The CEAFA report stated that "restricted admissions could be initiated only for the class entering MIT in 1985, 1986, or in 1987," and, if such restrictions had been in place, "they could have been applied to at least one quarter of the students." The plan would have been implemented in the fall of 1984, with a two-year freeze on student enrollment.
