Harriers extend winning streak

By Arthur Lee

The MIT indoor track team extended its 12-meet winning streak to 13 by ousting WPI and Brandeis last Saturday at the Athletic Center. The Engineers racked up a total of 85 points, equalling the combined total of WPI's 89 and Brandeis' 86.

The Big Guys of the team performed well in the weight events. Co-captain Pat Parris '86 bested everyone in the 35-lb. category with a throw of 54' 10". Greg Procopio '86 scored third place with a respectable distance of 47' 10" despite a hamstring injury, contributing two points to the MIT cause. Bill Kelly '85 rounded out a fourth place with his throw of 43' 11".

However, the weightmen performed less well in the shot put. Parris was the only one who managed to place in the event, taking third with a throw of 43' 3". Procopio, who normally would have done very well, had to adapt a less powerful stance facing the field because of his injury. He was unable to place in the event.

Ed Freeman '86 outdistanced everyone in the long jump with his 20' 1/4'. Another Ed, Ed Martin '88, captured a fourth place in the triple jump. Martin accomplished it with a distance of 40' 6/2".

In the league's field-building department (a.k.a high jump), Brad Smith '85 soared a second spot by clearing 5' 8". Teammate Joe Alfano '88 brought in one more attempt, equalling the combined total of 85 points, and Martinez accomplished it with a distance of 46' 16/2".

In the leaping-tall-buildings department (a.k.a high jump), Brad Smith '85 soared a second spot by clearing 5' 8". Teammate Joe Alfano '88 brought in one more attempt, equalling the combined total of 85 points, and Martinez accomplished it with a distance of 46' 16/2".
