Inside the Crimson's gates

(Continued from page 4)

day that deep down he respects MIT students have a better social life. The average Harvard student isn't stupid."

"We'll agree that, Go on.

"Well, Harvard students eat in dining halls all the time. Every Saturday night — I can't understand why, since the twill there makes all the food look good. And when one of them — or so they say — goes out to eat at 12 Gelasio or Chi-Chi's or some- where, he notices that just about everyone else his age is from MIT.

"How can this be?"

"Come on, MIT rings are designed so it clicks at sixty sec- onds. And notwithstanding, he can tell by the conversations nearby. What is it — in Robert Lud- dins' The Master Circular you cannot tell from MIT facts but one of your students have to here to send your center's excess/surplus property. Ex- cess property, which is no longer needed at the Institute is available for sale by the Institute.

"I'm surprised. Did you tell the Haydard staff to take advantage of the Insti- tute's excess/surplus property. Ex-

surplus (that prop- erly, which is no longer needed at the Institute) is available for sale to students, faculty, and administrative staff to take advantage of the Insti- tute's excess/surplus property. Ex-

cess property, which is no longer needed at the Institute is available for sale to students, faculty, and administrative staff to take advantage of the Insti- tute's excess/surplus property. Ex-

What I'm saying is, I'm not sure if you can tell from MIT facts but one of your students have to here to send your center's excess/surplus property. Ex-

cess property, which is no longer needed at the Institute is available for sale to students, faculty, and administrative staff to take advantage of the Insti- tute's excess/surplus property. Ex-

Tuttle, do you think it's all right that we should profit from our mistakes?

"I'm mad.

"It seems to me that all the Harvard students have rather a lot of sense. But I don't think the Harvard students have the drive to be the best. Your work at Microsoft

in software development and

matters.

Microsoft is owned and operated by the same people of bold vis-

on who produced the first

microcomputer system software (BASIC), the first plug-in processor (SoftCard), the first lap-held

computer (Tandy M102), and other firsts, and the computers — Bill Gates and Paul Allen are technical wizards themselves. They understand the work, and they understand people like themselves who have the drive to be the best. Your work at Microsoft matters. It will be used by millions of people, there's a lot of satisfaction in that. Microsoft will give you a chance to show the world and yourself just how good you are.

To make a good thing better, Microsoft is located in the center of a scenic playground, just 15 minutes from the major sports and cultural activities of the city of Seattle. Life style is casual, but active with a wide variety of outdoor activities, mountains for skiing and hiking, ideas, ocean, etc.

We want programmers who will create Microsoft High Performance Software. You will have top skills, top grades and achievements and have taken talent in software development and systems programming through relevant experience such as summer employment, work at a campus computer center, graduate research and/or professional work experience. You will possess a sound base of hardware knowledge and a strong eagerness to learn and grow. You must meet these qualifications, you deserve to work with the Microsoft Corporation, an excellent compensation package. Join Ann Rath, Technical Recruiter, Dept. WZ, MICROSOFT CORPORATION, 10700 Northup Way, Bel- bingen, WA 98020. We're an equal opportunity employer.

We will be interviewing on campus Friday, February 1, 1985. Please contact your career placement office for schedule information.

MSI \\quad MICROSOFT CORPORATION \\quad 10700 NORTHUP WAY, BEL- BINGEN, WA 98020 \\quad WE RE AN EQUAL OPPORTUNITY EMPLOYER

Missouri will be on campus February 1, 1985 to interview systems design programmers

MICROSOFT CORPORATION is seeking EXCEPTIONAL SYSTEMS DESIGN PROGRAMMERS to work on multi-tasking operating systems, networking, advanced compilers, interactive systems, graphics, productivity applications and more. You'll be working with hardware such as the Macintosh and other IBM machines. You'll have a chance to write in a variety of languages, Unix, PDP11, VAX, Sun 68000 machines. This is a place where you can explore beyond the boundaries of your experience as a software engineer. The atmosphere couldn't be better. Microsoft provides the best systems programming work environment.

- flexible working hours, private offices, comfortable lounges where you can sit around and talk to people who submit
- even refrigerators full of free sodas and fruit juice, and the hardware...
- all the high-level hardware (DEC-20, PDP 11, VAX, SUN 68000 machines)
- software development tools you'll need in a
