IT'S AN OPINION SECTION FOR MORE THAN JUST "FLAMERS."

The Tech's opinion section. It's for every student with something to say. It's for students concerned with the quality of their MIT education or the quality of their life. And it's a place where you can voice your opinion about what's printed in the pages of The Tech.

The Tech devotes an extraordinary amount of space to printing the opinions of MIT students, faculty, staff and community. And provides far more space for feedback than any other campus publication.

It covers every issue from pornography to overcrowding. Letters from alumni and seventh-year students. Columns and cartoons — The Tech opinion pages have it all.
