Macintosh

High technology. Without high anxiety.

Of the 235 million people in this country, only a fraction know how to use a computer. Which is why Apple invented Macintosh, the computer for the rest of us.

No more time wasted pouring through manuals. No more complicated commands. Macintosh is so advanced, you can be doing meaningful work in a matter of hours. Because if you can point, you already know how to use it.

Our professional sales staff will answer all your questions and, of course, provide service and support. So come in today for a hands-on demonstration. Without sweaty palms.
