Course 17-025, Bureaucracy and Public Policy, taught in Materials and Humanities or in materials and the arts. The project may take the form of laboratory research, a research paper, an exhibition, or a work of art. The deadline is February 4, 1985, for the preliminary project proposal and April 22, 1985, for the final submission. For more information, please contact Prof. L. Hobbs, Room 13-4000, x-6835 and Prof. A. Kasell, Room 14N-322, x-4144.

The American Institute of Steel Construction has announced that eight graduate fellowships of $5000 each will be awarded in 1985 by The AISC Education Foundation. The grants will be awarded to graduate civil or architectural engineering students proposing a course study toward an advanced degree related to fabricated structural steel. Applicants must be U.S. citizens. Deadline for receiving applications is March 1, 1985. To obtain applications, write AISC Education Foundation, 400 N. Michigan Ave., Chicago, IL 60611, or call 312-670-2400.

A Soviet-American conference on Biomedical Engineering is being held, today through Thursday, in Kreage and the Student Center. High-ranking Soviet scientists will be present, delivering papers and meeting with their American counterparts. Though we welcome these visitors, we feel it important to remind them that cultural and scientific cooperation will be incomplete as long as Soviet scientists who desire to emigrate, or who wish to pursue their own cultural and religious traditions, are dismissed from their positions, harassed, and imprisoned.

We invite all members of the community to join us in peaceful protest against this discrimination, today, 12:30 - 2:00, in front of the Student Center.
