SOME DAY YOU COULD BE OUT OF A JOB AND HUNGRY

In Cambridge there are many people who are hungry because they cannot afford to buy enough food.

For the past year, 15 students from Senior House have cooked and delivered one meal per week to one of the many shelters that try to help these people. It takes 4 to 5 people about 3 hours to make a meal to feed so.

This project was a success and is continuing. We would like to start similar efforts in other living groups.

If you would like to join or help start such a group, come to the meeting.

THURS, FEB 28
7:00 pm
ROOM W20-353

We are an Equal Opportunity Employer M/F/H/V

EG&G Idaho, Inc., prime operating contractor for the Department of Energy’s Idaho National Engineering Laboratory, is actively involved in solving the energy problems of the nation and the world. Located in the heart of the Rocky Mountains, the INEL is one of the world’s largest research and development centers.

A career with EG&G Idaho is a commitment to the future. There is challenge, excitement, and involvement in work on programs in nuclear reactor development safety, waste management, and other energy-related programs.

If you cannot interview with us at this time, but would be interested in information about opportunities with EG&G, send your resume and salary requirements to Staffing & Development Dept. MD-17.

EARN OVER $1,000 A MONTH
WHILE STILL IN SCHOOL

Juniors & Seniors! If you’re a math, engineering or physical sciences major, you might qualify to get a check for more than $1,000 every month.

It’s part of the Navy’s Nuclear Propulsion Officer Candidate Program. And the nearly $25,000 you can earn while still in school is just the start.

When you successfully complete your studies and become a Naval officer, you receive an additional $6,000 bonus. On top of that you receive a year of graduate-level training you can’t get anywhere else at any price.

As an officer in today’s Nuclear Navy you have a career advantage no civilian job can offer. The Navy operates over half the nuclear reactors in America. The early responsibility and unequaled experience you get as a member of the nuclear propulsion officer team place you among the nation’s most respected professionals in one of the world’s fastest growing fields.

In addition to the professional advantages, as a nuclear-trained officer, after four years with regular promotions and pay increases you can earn as much as $45,800. That’s in addition to a full benefits package.

Find out more about the unique and rewarding Nuclear Propulsion Officer Candidate Program. Call or write the Naval Management Programs Office:
