World

French government to reorganize voting procedures — French President Francois Mitterrand an-
nounced Wednesday his decision to change the voting system for next year's national elections. The move
is in an effort to allow the ruling Socialist Party to remain in power in the national government. Voting
will be by proportional representation according to political party lists.

Two South African protesters — Nobel Peace Prize laureate Bishop Desmond M. Tutu led a march of
3,000 through Johannesburg, South Africa to police headquarters Wednesday. The demonstration
resulted from South Africa's detention without trial of opponents of its racial policy. None of the protesters
were arrested despite a law banning political protests by more than two persons.

Rain is on the way — Today should be breezy and mild with lows of 50 degrees in the evening. Rain

Weather

Rain is on the way — Today should be breezy and mild with lows of 50 degrees in the evening. Rain
showers are likely tonight and tomnorrow, and temperatures of 60-64 degrees are expected.

Attention Graduate Students

The Graduate Student Council will hold nomination interviews for the committee that is forming to study the impact
of MIT of military support for research in education. Interviews will be held Tuesday, April 9 and Wednesday, April
10 at the GSC office (Walker, 50-222) from 5 to 7 pm. Interested graduate students should contact Anne St. Onge at
3-2195 for an appointment, and must also submit a resume and statement of interest (including relevant experience)
to the GSC by Monday, April 8.
