FACULTY CHAIRMAN PROPOSES DEGREE REQUIREMENT CHANGES

in Charles R. Jonas and "Lack of direction in the science curriculum," the Faculty Chairman presented a proposal for changes to the undergraduate degree in a faculty meeting Wednesday. The proposal is based on the General Institute Requirements in effect as of the fall term of 17 subjects, more than a requirement of 17 subjects, which would be a reduction in the Humanities and Social Sciences as well as in the Department beyond required subjects and restricted electives.

The proposal also calls for changes in the Humanities and Social Sciences. The number of required subjects would be reduced from 17 to 15, and the number of subjects outside of the Department would increase from 7 to 9.

The faculty will vote on the structural changes at its next meeting, scheduled for May 15.

Looking ahead

Provost Francis E. Low presented a report on a long-range plan for MIT, which resulted from the work of a ten-member planning committee Low chaired. Low outlined in the report MIT's long-range goals, including "research and educational initiatives," and the attraction of "a more diverse undergraduate student body."

Long-range goals included attracting more women and minorities to MIT and increasing the Institute's endowment. He said this would raise faculty salaries and provide more financial aid to students.

Deutch plans restructure

By Edward Wang

John M. Deutch '51, who will replace Francis E. Low 25 as Provost effective July 1, has announced plans to institute a "major improvement and approval of undergraduate education at MIT" by reorganizing the Provost's Office.

The plan centers upon the establishment of an Office for Undergraduate Education (ODEUE), according to a press release issued by Deutch. The ODEUE will conduct an intensive appraisal of undergraduate education at MIT and will advise changes.

"The reorganization permits one to focus upon all aspects of life in and out of the classroom," Deutch explained.

Deutch will appoint Prof. Samuel J. Keyser to associate provost for Educational Policy and Programs. Keyser is currently head of the Department of Linguistics and Philosophy and director of the Center for Cognitive Science.

Margaret L. A. MacVicar '65, professor of Physics and president of the Institute, will be named Dean for Undergraduate Education.

The newly created ODEUE will consist of Keyser and MacVicar, as well as Dean for Student Affairs Shirley M. McBay and Dean of the Graduate School Frank Perkins '55.

MIT is not alone in evaluating the undergraduate curriculum and what developments in education, will be major appraisal and improvement of undergraduate education at MIT and will advise changes.

"The reorganization permits one to focus upon all aspects of life in and out of the classroom," Deutch explained.

Deutch will appoint Prof. Samuel J. Keyser to associate provost for Educational Policy and Programs. Keyser is currently head of the Department of Linguistics and Philosophy and director of the Center for Cognitive Science.

Margaret L. A. MacVicar '65, professor of Physics and president of the Institute, will be named Dean for Undergraduate Education.
