Have you ever made a small mistake, not realizing it at the time, that cost you moments later? Tad Aris made such an error last spring, and it is tormenting him now.

Tad, a second-year student, has lived on the same floor at Burton House for three years. He has played rockbox, gone to parties, and even served as floor chairman. He filled out a confirmation card in April for his full room, along with the rest of the returning residents.

Because rooming assignments are made by飘票 students, the confirmation card is considered the final word. The card had to be completed during a very busy two hours in the bank. Tad had filled out the card, he assumed it if he planned to return for the fall. The list had been revised.

There are other people who have better excuses to get back into the system, according to Sherwood. But Tad was not trying to use an "excuse." Tad never intended to leave in the first place. Sherwood offered one way for Tad to stay. If he can find two upperclassmen already in a double, he will be permitted to triple with them, Sherwood said.

A student in a crowded triple is unheard of. But there is an additional catch. He would not be permitted to have any piece of Institute furniture in the room. His bed and desk would not be provided.

We all know the dorms are going to be crowded this year. We know it is the Dean's Office problem, and a big problem at that. There is no quick cure-all for the overcrowding situation. But if we can all just take a deep breath, many of those errors and omissions will be corrected.

Halfway through the summer, Burton House Desk Captain Paul Romaneli submitted a revised list. A week ago Thursday, Tad heard from the Dean's office.

Tad's reaction? "I'm disappointed that it is the last week of July before I find out," he said. "I thought the entire dormitory system for this term would be absolutely no room in any of the dorms. We don't have much attention to it."

Tad's mistake was considered an oversight. Thirty other people have better excuses to get back into the system, according to Sherwood. But Tad was not trying to use an "excuse." Tad never intended to leave in the first place.

Sherwood offered one way for Tad to stay. If he can find two upperclassmen already in a double, he will be permitted to triple with them, Sherwood said. A student in a crowded triple is unheard of.

Most freshmen have passed their first test at MIT: finding the Student Center and saying, "I want to see the Residence/Orientation (R/O) Center. Congratulations are in order. But the Class of 1989 has a more challenging task ahead.

Freshmen, don't worry about the Essay Evaluation. It is one of four methods by which you can satisfy Phase I of the Institute Writing Requirement. The New Athletic Center will come alive Tuesday when the majority of you will attempt to recover from the weekend's Rush activities. The thousand of you who manage to find the New Athletic Center will be able to maneuver to your places at the less than stately wooden tables without the snooker of all writing surfaces.

I question the wisdom of administering the Essay Evaluation during R/O Week. Scheduling an essay over the past three years. There are other methods of testing for freshmen at a more appropriate time. This year, I hope the Committee will have more adequate resources available.

You'll apply pencil to paper in an attempt to write a clear, correct, expository essay after a summer of intense academic preparation. Strunk's definition is my advice: "Vigorous writing is concise." After you have dashed off your composition in just under 90 minutes, the Committee's staff will secretly bestow your essay to an "evalua-

tion," and 45 percent passed the Class of 1984 failed the Essay Requirement which don't occur marginally. The thing that makes the Writing Requirement, might subjective and flexible. It's only one of four methods by which you can satisfy Phase I of the Institute Writing Requirement.
