Check your chances of getting colorectal cancer.

Cancer can attack anyone. But some people live with a higher risk of developing cancer than others. If you check any of the boxes, see your doctor. Talk with him about your risks of getting cancer.

- Have a recent history of polyps.
- Have blood in the stool.
- Have ulcerative colitis.

Back, by popular demand.

Just a few years ago, illegal hunting and encroaching civilization had all but destroyed the alligator population in the south. They were added to the official list of endangered species in the United States. Now alligators have made a comeback.

Conservationists credit an aggressive public-relations campaign for the alligator's resurgence. The alligators are now a popular tourist attraction, providing a boost to the local economy.
