A STATE OF MIND...

A spirit of teamwork... a drive to achieve... a talent for discovery. We thrive on meeting the tough energy demands of a changing world. We help our people discover their energies with challenging problems, diverse assignments, high mobility and visibility, and salary and benefits among the best in the industry. That's the Chevron State of Mind... searching, energetic, progressive. It's resulted in an impressive list of accomplishments over our one-hundred-year history. We were the first to find large oil reserves in Saudi Arabia and we discovered the largest new field since Alaska's North Slope — giant Point Arguello off the Southern California coast. Recognized as a leader in exploration and production technology, we brought almost a century of innovation to the design and construction of giant offshore platforms in the turbulent North Sea. More recently, our merger with Gulf marked the largest acquisition agreement in the history of American business. Now, we're looking for more good minds — mechanical, civil, chemical, electrical and petroleum engineers, and professionals who excel in geology, geophysics, chemistry, computer science, finance and accounting. Working together, we plan to maintain a standard of excellence unsurpassed among energy corporations. The Chevron State of Mind... it's the state of the art in the energy business. Become a part of it. Write: Manager, Professional Employment, Chevron Corporation, P.O. Box 7137, San Francisco, CA 94120-7137.
