Women question proposal

"Rape and violence are the problem — not sex," Fully asserted, "It's unbelievable, Vance predicted, along with the view that "sex itself is degrading to women."

The third potential source of abuse concerns that section of the referendum which con-

APPLYING TO SEX, and eventually to sexually explicit, material is con-
eivable, Vance predicted, along with the view that "sex itself is degrading to women."

If it's easy, Type in the command "isoform" and a list-
ing form, with instructions, will appear on the screen.

Electrical Engineering, Computer Science and

An equal opportunity

NSA offers a highly competitive salary and

Government's computer systems.

This three-fold mission requires unheard of solu-
tions to uniquely challenging problems. This is why NSA is — in many areas — working well into the 21st century. Now, you can work with us.

Here are just a few of the possibilities:

Electrical Engineering. Research and develop-
ment projects range from individual equipments to com-
plex interactive systems involving numeric
processors, microcomputers and computer graphics.

Facilities for engineering analysis and design
automation are among the most advanced anywhere.

Computer Science. Interdisciplinary careers in
clude systems analysis and design, scientific applica-
tions programming, data base management systems,
operating systems, graphics, computer security and
networking—all in one of the world's largest com-
puter installations.

Mathematics. Projects involving vitally im-
portant practical applications in mathematical con-
cepts. Specific assignments could include solving
mathematical programming, data base management systems,
operating systems, graphics, computer security and
networking—all in one of the world's largest com-
puter installations.

National Security Agency is responsible for analyzing
foreign communications, safeguarding our
government's vital communications and securing
the government's computer systems.

The referendum does not require
that any harm be caused for an
individual to be found guilty, she
explained. One needs only prove
that material meeting the defini-
tion was distributed by that
person.
