MAKING THINGS HAPPEN

Engineers and scientists at Northrop Corporation know how to make things happen with advanced technology. Applying their own curiosity and the most sophisticated systems and equipment available, our technical professionals are given the creative freedom to challenge conventional assumptions. To find new techniques and systems to integrate diverse technologies. To shape the future development of new and emerging technologies.

Northrop is a world leader in aerospace and electronics. Many of our recent college graduates are involved with some of the most critical technologies: artificial intelligence; avionics; guidance and navigation; sensors and signal processing; remotely piloted aircraft; data processing; integrated flight control and propulsion.

As our business grows, we're finding more places for young professionals who want to make things happen. If your background is engineering, computer science, physics or math, we'd like to learn about you. Find out when our representative will be on your campus by visiting the placement office. Or write us directly.

Northrop Corporation, College Relations, Dept. CN S-40, 1640 Century Park East, Los Angeles, CA 90067.

PROOF OF U.S. CITIZENSHIP REQUIRED. Northrop is an Equal Opportunity Employer M/F/H/V.
