Track runs over Polar Bears

(Continued from page 16) an identical result, as Vasso Bose '87 was unable to catch up with the leaders and ended up second, with Schubert finishing third.

The Engineers took the lead in the remaining sprint events with a strong 22-5 win. Co-captain Dan Lin '86 had an easy win in the 400-meter dash, and Teddy Bsey '88 managed to hold off a challenger in the final straightaway to come in second.

In the 900-meter run, Marc Light '88 had to overcome a strong challenge to win, and Charles Parratt '91 ran a strong race in taking third. Peters and Mike Donohue '87 finished first and second, respectively, in a tight 55-meter dash.

The Engineers swept the field in the 800-meter run. Sean Walker '90 took an early lead and held on; Robert Joy '87 took over second place in the middle of the race and stayed there, while Anthony Snodgrass finished third.

In the 800-meter run, Mike Donohue '87 finished first, while Schubert finished third. Charles Parrott '87 ran a strong challenge to win, and Bsey hung tough to place third.

The Engineer's 3000-meter squad is the strongest in MIT, and its sweep earned the M.I.T. victory. Sean Kelley '89, although trailing the pack for part of the race, outdueled runner Bill Mulley '86 to win. Param Erdogan '87, who led during the early part of the race, also broke the nine minute barrier, finishing third.

MIT had little difficulty in taking both relays. Although the 4x400-meter relay of Donohue, Bsey, Parratt, and Lin fell behind early, Bsey had a strong leg in turning a 10-meter deficit into a 5-meter lead, and the Engineers never looked back in winning by 60 meters. The 4x800-meter relay of Dighe, Sam Peretz '89, Robin- ley, and Walker ran unchallenged in setting a freshman record with 8:21.61.

Head coach Gordon Kelly was pleased with the team's race on the occasion. Initially, Kelly didn't give the Engineers a high chance for victory due to several key injuries. MIT closes out its indoor dual-meet season Friday at home with a tri-meet against Division II Bentley and Division III University of Massachusetts-Boston before travelling to Bates on Feb. 21-22 for the New England Division III Championships.

(Sharon Katz, Athletic director of the track team.)

Hush little baby don't you cry.
If someone doesn't do something, you'll just die. Be a Peace Corps volunteer. You can serve in the Peace Corps.

A Year of Comparative Study and World Travel

Film, Television and Social Change:
Cambridge, London, Rome, New Delhi, Poona, Bombay, Chiangmai, Toh Belling, Shanghai, Hongkong, Los Angeles

Film and Politics:

September 1986 - May 1987

Faculty from Harvard, Columbia, New York University, University of California and Indiana University

Stanley Cavell, Robert Gardner, Wm. Rothman, Charles Warren, Cristina Szanton, Katherine Morgan, Victor Wallis, Robert Stamm, Eric Rentshler

Two academic programs limited to thirty students each

For further information call Joan Tiffany collect: 617-267-8612
The International Honor Program
19 Braddock Park
Boston, MA 02116

Who?
BS and MS candidates in electrical engineering, computer science, mechanical engineering, chemical engineering, aeronautical engineering and nuclear engineering.

What?
The General Electric Technical Recruiting Team will be conducting campus interviews at the Ashdown House for challenging career opportunities within one of the most diversified companies in the world. Contact your placement office to schedule an interview with one of our technical managers. Various entry level alternatives are available such as:

- Edison Engineering Program
- Manufacturing Management Program
- Chemical-Metalurgical Engineering Program
- Computer Technology Program
- Individualized Direct Placement

Opportunities exist in such fields as:

- Artificial Intelligence
- Expert Systems
- VLSI
- Robotics
- CAD/CAE/CAM
- Computer Graphics
- Software Engineering
- Signal Processing
- Controls

For more information on these programs and the major business areas available refer to the General Electric file located in your placement office.

When and Where?
Thursday, February 13th and Friday, February 14th at the Ashdown House.

What else?
Sign-ups will commence Thursday, January 23rd

The future is working at General Electric
