The Commission was established in the spring of 1985 with overall responsibility for conducting a review of the MIT program of undergraduate engineering education, close collaboration with the parallel reviewing being conducted at the Schools of Science, Arts and Social Sciences in which the Commission and the social sciences, the humanities, and the advancement of society. Working closely with Engineering Council, with faculty and student groups in each of the engineering of undergraduate education at MIT is the only way to insurance that they will be able to exercise their professional skills and lead in their technical fields:

We established a Subgroup on Special Issues and a Subgroup on the Engineering Curriculum: Lidzky Chairman.

We have begun to acquire a working knowledge of current technical developments:

b) Have begun to understand and respect the economic, political, social and environmental issues and the role of the engineer in society:

g) Have begun to understand and respect the economic, political, social and environmental issues and the role of the engineer in society:

The first Commission's official report was issued by Jack L. Kerrebrock, chairman of the Commission on Engineering Undergraduate Education:

A Status Report to the Engineering Student Body

The Coordinating Office of the Undergraduate Council with responsibilities for academic affairs in the undergraduate programs, including its goals, methodology and structure:

- Consisting of Provost, Howard L. Smullen, Dean for Academic Affairs, Boro Mikic and me, the Commission is extended by a set of three subgroups:

- A Subgroup on the Institute Cores: Harvey Chairman.

- A Subgroup on the Curriculum: Lidzky Chairman.

- A Subgroup on Special Issues: Mikic Chairman.
