The Graduate Student Council (GSC) is currently seeking interested graduate students to fill vacancies on Faculty and Presidentially appointed Institute Committees. Openings exist on the committees listed below; if you are interested in applying for a seat on one or more of these committees please contact the GSC Office, 50-222, x3-2195. Hearings are scheduled for Tuesday, April 22 from 6:00 to 9:00 p.m. and Thursday, April 24 from 1:00 to 4:00 p.m.

Committee on Discipline...adopts cases of alleged misconduct by a student brought to its attention by the Dean for Student Affairs or any other member of the MIT Community. The accused student has the right to be present at a hearing scheduled by the Committee. If the findings of the Committee include a recommendation that the student be suspended or expelled from the Institute, the recommendation is made to the President for approval or disapproval; otherwise the Committee acts with power on proposals for disciplinary action.

Committee on the Undergraduate Program...this Committee is responsible for encouraging experimental innovations in undergraduate education and formulating policies for changes in undergraduate educational policy. It exercises oversight responsibility for undergraduate education, including the freshmen year and other interdepartmental programs, giving special attention to long term direction. The Committee exercises authority to approve and supervise limited educational experiments. (1 seat; applicants must have attended MIT as an undergraduate)

Faculty Policy Committee...the Faculty Policy Committee maintains a broad overview of the Institute's academic programs, deals with a wide range of policy issues of concern to the Faculty, and coordinates the work of the faculty Committees on the Academic Calendar, and other matters as elected by the faculty.

Committee on the Library System...this Committee shall formulate policy for the administration of the Library System, under the advice of the Director of Libraries, consistent with the objectives of the Institute. It serves as a liaison between the libraries and their users. The Committee shall review budget allocations and expenditures annually by the MIT Libraries. (2 seats)

Committee on Graduate School Policy...the Committee exercises general oversight of graduate programs and of students working for advanced degrees. It reports to the faculty recommendations on matters of policy in these areas requiring faculty action. The Committee acts with power on proposals for changes in graduate level subjects of instruction, on requests from graduate students for approval of minor departures from general requirements for advanced degrees, and in evaluating the academic performance of graduate students. The Committee makes recommendations to the Faculty for the awarding of advanced degrees. (2 seats)

Committee on Student Affairs...is concerned with student life and the quality of the learning and living environment at MIT. The Committee is concerned with the range, availability and effectiveness of Institute-wide support services to students and with the formal and informal relationship between the Institute and the student. The Committee serves as the standing faculty advisory body to the Offices of the Dean for Student Affairs. (2 seats)

Committee on Student Policy...is composed of members of the faculty, administration, and student body and has charge of the arrangement and conduct of commencement exercises. (1 seat)

IAP Policy Committee...was established by a faculty vote in 1971 to deal with policy matters and the continued evaluation of the Independent Activities Period, and to work closely with the Faculty Policy Committee and the CUP in reviewing IAP within the context of the total academic program. It reports to the faculty at intervals of not more than four years. (1 seat)

Corporation Joint Advisory Committee on Institute-Wide Affairs (CJAC)...was established in March 1969 by vote of the Corporation as a new special committee of the Corporation. Its purpose is to associate with the Corporation a broadly representative group at the Institute to which the Corporation can turn for consideration and advice on special Institute-wide matters requiring Corporation attention, such as the long-range planning of MIT's campus, the improvement of the institutional environment, and MIT's relations with Cambridge and metropolitan Boston. CJAC provides an additional means for bringing representatives of the student body, both graduate and undergraduate, and of the faculty into regular communication with the Corporation on matters of long-range importance to the entire Institute Community. CJAC also serves to acquaint the MIT Community more fully with the role and work of the Corporation, but it does not in any way modify the role of existing Corporation Visitor Committees. (2 seats)

Committee on Sexually Explicit Films...is an ad hoc committee consisting of faculty, students and staff, established to review unspliced X-rated sexually explicit films proposed for showing to the MIT Community. The Committee will review such films, prior to public showing, to determine whether they meet criteria established or adopted by the committee. (3 seats)
