Beavers lose to Bentley, 35-13

Rote Gasparini ‘88 punts in Sunday’s game against the Falcons. (Continued from page 20)

the receiver from Defensive Back Shane Arnold ‘88 — set up a 1-yard touchdown run in the second quarter.

A completed pass on a fourth-down fake punt that completely fooled the Beaver defense kept a Bentley drive alive. The drive culminated with a flea-flicker that caught the secondary off guard, resulting in a demoralizing 1-yard touchdown reception. The Falcons led 23-6 at the half.

Errors continued to plague the MIT offense in the second half. After a Falcon punt pinned the Beavers deep in their own end, Arians furnished the half away on the MIT 8-yard line, Bentley easily scored a touchdown to go up 29-6.

It became apparent that the MIT ground game took too much time off of the clock for them to mount a serious comeback. Despite Gasparini’s improved throwing this year, the failure to call for passes meant that even if MIT did score a touchdown or two, time would run out before the Beavers could catch up.

MIT’s insistence on running the football proved fatal, when the Beavers drove downfield. With first-and-goal on the Bentley 5-yard line, MIT did what all 100 spectators expected them to -- ran the ball. Bentley was ready, and four rushes were unable punch through the goal line, giving the ball back to Bentley.

But Bentley didn’t have the ball long — on second-and-eight from the 3-yard line, Wide Receiver Paul Wessel beat Dana Pirkes ‘88 down the left sideline and went all the way for a 97-yard touchdown. That set the score at 35-6.

In the fourth quarter, MIT finally mounted a sustained drive. Manda led the drive, gaining several first downs off of option pitches from Gasparini. Gasparini ran in for the touchdown, leaving the final score 35-13.

JEWISH INTRODUCTIONS

We announce for you:

An unpressured, student-designed service to introduce you to other Jewish graduate and undergraduate students in Boston.

- We feature a brief informal interview and we will match students from all of the Boston area schools. Interviews will be conducted at your campus beginning late October and at regular intervals throughout the academic year. Matches will be made between November and May.
- You can postpone a potential match with extensive advance notification, or you can arrange to meet each other at your mutual convenience. Whenever possible, participants will meet more than once each month. All inquiries and information will be held in strict confidence.
- There is a non-refundable two-dollar fee, plus a five-dollar deposit which will be returned upon completion of a follow-up questionnaire. Payments are due at the time of the interview.
- Call Arlene at 266-3882 between 9 a.m. and 2 p.m., Monday through Friday for interview appointments and information.

A project of the Metropolitan Outreach Program of the New England Hillel Council of Greater Boston, 230 New State Road, Boston, MA 02215 * Rochelle Steinberg, Director of Jewish Introductions.

Teradyne: A Very Large Scale Invitation from a Technology Leader

In electronics, the era of very large scale integration (VLSI) has arrived, leaving many companies with products suddenly obsolete and engineering staffs struggling to catch up.

But not Teradyne. Thanks to VLSI millions spent on R & D from 1964-1985, Teradyne was ready and waiting for VLSI.

Ready with VLSI memory testers, logic testers, analog testers, board testers.

Ready in Boston, Massachusetts, and Woodland Hills, California, where Teradyne designs for the electronics industry.

Ready in Deerfield, Illinois, center for Teradyne’s telephone system testing operations.

Ready in Nashua, New Hampshire, where Teradyne produces backbone connection systems and state-of-the-art circuit board technology designated to meet VLSI requirements.

This kind of technology leadership spells growth. Excitement. Challenge. Career opportunities you just can’t find anywhere else.

Teradyne. A company ahead of its time, looking for some good people to keep it ahead.
