Keniston committee will not reject Marx report

To the Editor:

The headlines of The Tech story on the Integrative Studies Improvement Committee (Keniston chairs new group, Nov. 4) give the false impression that the Committee has "rejected" or "abandoned" the proposals of the Marx Committee. In fact, the Committee favors the objectives to advance, rather than rejecting the Marx Committee. In short, we see our job as trying to improve the objectives of the Marx Committee with resources that do exist.

In short, we see our job as trying to advance, rather than rejecting or abandoning, the idea of integrative education at MIT.

Chairman Keniston

Vol. 106, No. 52 Tuesday, November 18, 1986
