The UA posted a "same sheet" in Lobby 7 last week for students to voice their opinions on the racial climate at MIT. One respondent pointed out that many minority students at MIT feel unheard. He posed the question: "Have you ever been the only white person among a bunch of minority students who have never seen or spoken to a white person before?"

Another student stated: "The first thing we can do about racism is to learn to recognize it in all its many forms. Only then can we deal with it."

The respondent continued, "Viewed in this way, the problem at MIT and elsewhere is clearly serious. Everyone who has an Arab student, or an Hispanic student, or a Greek student... in the Infinite Corridor and forms an instant, conscious, or subconscious pre-judgement of that student's character, interests, capabilities, likely actions in a given situation, we are practicing a significant and repugnant form of racism."

Dialogue needs to be increased, one advisor pointed out, adding, "We need to learn how to resolve such conflicts."

Some students proposed more discussion of minority issues on campus. "I wouldn't mind some discussion of minority issues on campus," said a student from the Students Club, and Chief Executive Officer of the MIT Student Union. "I wouldn't mind some discussion of minority issues on campus. "I wouldn't mind some discussion of minority issues on campus."

Student activities, administrative offices, academic departments and other groups - both on and off the campus - can list meetings, activities, and other announcements in The Tech's "Notes" section. Send items of interest (typed and double spaced via Institute mail to "News Notes, The Tech, room W204") or via US mail to "News Notes, The Tech, PO Box 289, Cambridge, MA 02139." Notes run on a space-available basis only; priority is given to official Institute announcements and MIT student activities. The Tech reserves the right to edit all listings, and makes no endorsement of groups or activities listed.
