"It simply won't work"
HSS Committee reported that the present requirement needs to be expanded.
"It simply won't work," the HSS Committee report states. The forum has gone too far. "It simply won't work, and it doesn't make much
sense intellectually," said Hildebidle. "I'm not so radically bad that it needs to be "thrown out," he continued. "I'm not convinced that people will be
sured to be fairly independent of lab responsibilities and who could be reasonable representatives. 

The forums, Hsu explained, have been important. They started mostly as a way for the major computer groups to exchange ideas. They will continue to be important in the future.

In conclusion, the forums have been a success. They have helped to improve the computer facilities and have brought the students and faculty closer together. The forums will continue to be an important part of the Athena program.
