MIT is unresponsive to community

To the Editor:

A few weeks ago, perhaps some of you noticed a group of people picketing in front of buildings on Massachusetts Avenue. What could have motivated these people to stay outside for hours in the 20th winter? MIT is demolishing their neighborhood. These people are our neighbors. Many have been evicted, many have had their places of employment destroyed, their lives disrupted by MIT, and our neighbors. Many have been in the weather?

... leave. Their lives disrupted by MIT, and our neighbors. Many have been in the weather?

... leave. Their lives disrupted by MIT, and our neighbors. Many have been in the weather?

... leave. Their lives disrupted by MIT, and our neighbors. Many have been in the weather?

... leave. Their lives disrupted by MIT, and our neighbors. Many have been in the weather?
