Meet America's Top-rated Aerospace Employer.

Talk with our representatives about why in 1985 The Almanac of American Employers rated Lockheed second overall among America's largest successful companies. Tops among aerospace firms. And talk about career opportunities at Lockheed. And about our famed "Skunk Works" facility where we developed the SR-71 Blackbird, an aircraft so advanced, it's still the world's fastest, highest flying airplane in sustained flight.

You'll see why we're a company with a remarkable history. And a future as promising as your own.

Lockheed is an equal opportunity, affirmative action employer. U.S. citizenship is required.

The Almanac of American Employers: "Lockheed's a good place to work. But the best thing about it is that it's a company that can take time out to teach you something about the aerospace business. It's a company who wants you to be a top-performer. They ask for perfection. They're willing to give you the tools to get there. You be part of something greater. Lockheed's what you'd call a visionary company. They believe in giving you the tools to create. They believe in making dreams a reality. And they believe you have the ability to do just that. Lockheed's a company of leaders. And they believe in having you create your own leadership. And they support it. They encourage it. They foster it. With the best tools at your disposal, you'll be able to create the tools you need to reach your full potential. Lockheed's a company where you'll find the tools you need to create your own future. Toward a dream that few dare to dream. Toward a dream that few dare to reach. Toward a dream that can be yours. Think Lockheed. Think Aerospace. Think You Can Build a Better Future. It's what we do. And it's what we do so well. Lockheed Corporation"
