Now that you've made it through college, ask your parents for a graduation present to help you get through life.
A Macintosh™ personal computer.
If you're headed off into the business world, we highly recommend our new Macintosh Plus.
Between its one megabyte of RAM, 128K of ROM and double-sided 800K internal disk drive, it lets you put all the power of a corner office on a single corner of your desk.
If your parents buy the idea of a Macintosh, but feel like maybe they've donated enough to your future the past four years, there's always our newly enhanced Macintosh 512K with its added 800K internal disk drive and 128K of ROM.
It's considerably more affordable, yet still has enough power to run hundreds of leading software programs. Besides, you can always upgrade your Macintosh 512K up to a Macintosh Plus later.
Of course, with either Macintosh, you get our advanced point-and-click mouse technology that makes using them easier than passing Pinball Theory 101. So you can immediately be productive, without taking a course in remedial computing.
To learn more, visit your campus microcomputer center. Soon.
Because once you're out of school, you're out of luck.

As a full time faculty, staff or student at MIT, you are eligible to purchase a MACINTOSH COMPUTER through the Apple University program. For further information, visit the MIT Microcomputer Center Bldg.11- Room 209 or call 253-7686.
