RIDE THE WAVES!

(with wmb 88.1fm)

WMBR is MIT's student-run radio station, broadcasting to the MIT campus and the greater Boston area with programming ranging from rock to classical, news to comedy, jazz to new and local music.

We need people interested in any and all phases of running a radio station — news reporters, announcers, radio engineers, technical people and management. (No experience necessary!)

Come see what we're all about! Stop by our studios in the basement of Walker (room 50-030) anytime!

Look for us on campus during R/O week — we'll be holding many special events, including a LIVE remote broadcast from the R/O picnic in Killian Court!

And of course, listen to us — we're at 88.1 on your FM dial!
