UA approves Student Center store

"The executive board decided that [members] would support the plan," Rodriguez said.

But Emerson attacked the executive board for not advertising the position to the entire student body. "You're making an ethical decision," the manager said.

Rodriguez countered that it would be impossible if money was lost; he also noted that the SCC number had been $50,000 from the organization several years ago.

Use of Cop questioned

Several students argued that the UA should consider other suppliers besides the Coop for the new store. The Coop had initiated talks with the UA about setting up the student store.

Russell argued that other suppliers had better merchandise. She said University Stationery would provide supplies to the store at 10 percent below cost (about the same as the Coop). But the UA had decided to provide a greater variety of goods than the Coop.

While the store would initially sell items at Cop prices, Rodriguez noted that the plan explicitly said that the store would discount goods if it was feasible. He added that the store could use other suppliers once it was in operation.

Gonzalez, a former member of the Coop Board of Directors, acknowledged that the Coop would try to use the store to help it exist. But she noted that the Coop had already said that the UA should not influence space allocation once the renovations were complete.

Jewish introductions

We announce for you:

An unposed, student-designed service to introduce you to other Jewish graduate and undergraduate students in Boston.

In five separate interviews, you will have the opportunity to meet other students from all the Boston area schools. Interviews will be conducted on your campus beginning the week of November 1. You and you potential friend will each receive a confidential letter, so that you can arrange to meet each other at your mutual convenience. Whenever possible, participants will receive more than one match, upon completion of a follow-up questionnaire. All inquiries and information will be held in strict confidence.

*There is a non-refundable $25 fee for non-students. Payments are due at the time of the interviews.

*To set up a potential match, you must complete the application form below and return it by October 19 and 20.

*Interviews will be held at MIT on October 17 and 20

A project of the Metropolitan Outreach Program of the B’nai B’rith Hillel Council of Greater Boston, 233 Bay State Road, Boston, MA 02215 - A Beneficiary of Combined Jewish Philanthropies.

Build a Dream Machine at AMD

Every new grad wants to be involved in interesting and challenging projects. Their reality is that at AMD, you really will have a chance to choose within a wide range of technologies right away. Our innovation lies in the creation of every type of memory, logic and microprocessor integrated circuit that will make the dream machines of the future possible.

When you choose to begin your career at AMD, you will find an upbeat spirit that belies our power as the world's largest exclusive producer of integrated circuits. Our recent merger with Monolithic Memories has brought us even more strength and financial muscle. Your BS, MS or PhD in Electrical Engineering, Chemical Engineering, Advanced Micro Devices (One great company.

Solid State Physics, Materials Science, or Computer Science could be your entry into one of the most stimulating and innovative environments in the semiconductor industry. Opportunities are available at our Sunnyvale, California headquarters and at our Austin and San Antonio, Texas facilities.

Info. Session: October 20

On-Campus Interviews

November 4

Check with your Placement office for more information. If you can't attend our Interview and Information Session, contact us directly.

Send your resume to University Recruiting, Advanced Micro Devices, MS-87, 901 Thompson Place, PO Box 3452, Sunnyvale, California 94086. Or call TOLL FREE (800) 967-8490, Ext. 2796, or call directly (408) 749-2799. An equal opportunity employer.
