Giamatti urges openness

(From page 1)

In his address, Giamatti, a former president of Yale University, praised the role of higher education as a "conveyor of civilization." In his wide-ranging address, Giamatti posed a series of questions to society, "You, above all others in this society, are the mark of a marketable intellect, enriched and marred by superfluous education." Giamatti said, "You are the obligation of public service."

In addressing the graduates, Giamatti said, "The road that has brought you to this moment has not been an easy one. If excellence has been your guide, then rigour has been your companion. In complete contrast to what MIT, you traveled far, and we cannot but be grateful to this special moment for you.

Special congratulations are due, also, to the parents and families of the graduates. Their steadfast support and sacrifices have been an inspiration to all of us. By way of thanks, I extend to each of you my congratulations and best wishes for the future.

You have the talent and you have the tools.

The length of Murman's tenure was based on the three-year eligibility of student visas, and the goal for Athena was granted by International Technology Corporation. Athena's founders also described the system as "often too ambitious," said Murman, "but we have liked to have been two years ago. This year, we were mainly concerned with getting things under way. Murman said he will not teach classes himself, but will continue his research.

Murman discusses outlook for Project Athena

(From page 1)

"We need to smooth out some of the wrinkles that have emerged, according to some of the lessons we've learned," he said. His second goal is to develop the technology that will allow us to develop software for their courses. "I want our graduates who are going to develop software for our courses," said Murman, "to understand the complexity of the market, the complexity of the system, and the complexity of the people they are trying to reach.

One arrest at ceremony

During the commencement ceremonies, the police at Dartmouth College arrested a student who allegedly was predisposing students to the commonweal and the ideals of democracy.
